FYC Viewing Platform Spec Sheet
ASSET GUIDELINES

- **DO NOT** include "FYC" on the logo or key art.

- **DO NOT** include award laurels of any kind.

- **DO NOT** include blatant campaigning language (i.e. VOTE, CHOOSE, anything along the lines of VOTE FOR ME).

- **DO NOT** include show tune-in (i.e. "Mondays 8PM" or "Streaming Now").

- **DO NOT** include specific Emmy® categories.

- **DO NOT** include additional text such as editorial/press quotes, show description, website links, or other awards/accolades.

- **DO NOT** include the gold "For Your Consideration" banner in your email image design as it is part of the email template.

- **DO** include network or studio logo on the 650px width email image, in addition to whichever programming you are promoting.

NOTE:

The above pertains to the viewing platform only, not the invitation and event copy.

FYC Viewing Platform Spec Sheet

LOGOS

program logo

The program logo or key art is a square image (600px x 600px minimum) and must include the program title.

JPG or PNG, not on a transparent background.

Maximum file size is 400kb.

FYC Viewing Platform Spec Sheet
HEADSHOT

headshot (for performer categories)

The headshot image is a square image (600px x 600px minimum). Color photo preferred.
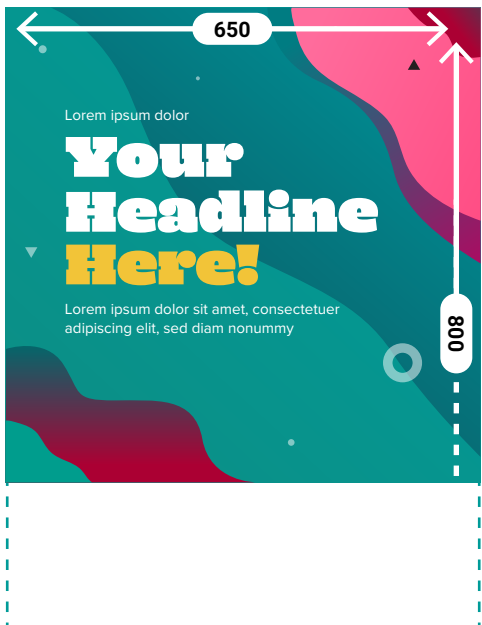

JPG or PNG, not on a transparent background.

Maximum file size is 400kb.

EMAIL IMAGE

email image

The email image (650px x max. 800px) is used for the viewing platform email. The height is variable, however 800px is generally a good benchmark.

JPG, PNG, or GIF at 72dpi resolution.

Maximum file size is 400kb.

FYC Viewing Platform Spec Sheet
VIEWING PLATFORM CODES

viewing platform code (not required if using TVA viewing platform)

Viewing Platform codes must NOT contain any spaces or any of the
following special characters: & # ; : < > – " " = _

If your site requires unique access codes, at least 30,000 codes will
be required and provided by you in a spreadsheet - CSV or XLSX.

Codes must expire by September 30, 2024.

VIDEO UPLOADS

video uploads (for TVA viewing platform only)

For detailed specifications for video content to be uploaded to the Viewing Platform,
